

## **Associate Trainer Opportunity**

*Flexible • Professional • Wellness-Focused*

YesNutritionWorks is expanding and welcoming interest from individuals who have a genuine enthusiasm for wellness, functional nutrition principles, and emerging bio-technology tools. Our first area of focus is **LifeWave phototherapy (patching)** — non-invasive, drug-free, and grounded in light-based science.

### **This Associate Trainer role suits:**

- Health practitioners (nutrition, naturopathy, bodywork, coaching, complementary therapy)
- Current students in any health or wellness field
- Individuals with lived wellness experience who are reliable, warm, and willing to learn
- Anyone seeking a professional, flexible **side business** with meaningful purpose

### **What You'll Be Doing**

- Learning the essentials of LifeWave phototherapy patches
- Supporting individuals using simple, safe, non-pharmaceutical tools
- Guiding people through calm, realistic wellness practices
- Encouraging clients with clarity and steadiness
- Building your own income stream with full transparency
- Optional later expansion into Mannatech glycans and Vidafy nano-drops (not required)

**Client enquiries often come through YesNutritionWorks and our wider network of health practitioners, and you may be invited to support these clients as part of your role. While you'll gradually develop your own small client base, this position is *not* recruiting-focused. Growth is steady, supported, and professional — with no pressure and no expectation to “chase” clients.**

### **What You Bring**

- Genuine interest in wellness and weight-management support
- Curiosity about emerging health technologies
- Warm, professional communication
- Integrity and dependability
- Willingness to learn and follow simple compliance guidelines
- Ability to invest in a small starter kit

### **What We Offer**

#### **Supported onboarding and guidance**

You'll receive clear support as you learn the tools and build confidence, with check-ins and resources available as needed.

- Clear tools and simple steps to begin
- Encouragement and steady direction
- A warm, professional international network
- The opportunity to build a flexible, meaningful side-income
- Alignment with a values-based, science-aware wellness brand

### **Location**

Fully remote.

Open to applicants in New Zealand and internationally.

### **Next Step**

If this opportunity resonates with you, please get in touch with a short introduction.

All conversations are confidential.
